

## Dear friends in education, students, teachers, children!

Our school in a quiet district of the capital city of Vienna, Austria, 20 minutes from both the airport and the historical center, welcomes partners. We're actively looking for partner schools to create projects and mobilities that help our students learn for life, build lasting friendships and develop a democracy-oriented European identity.

Get to know our goals and get in touch!

### Our aims and goals

**1) Developing digital competence in a meaningful and effective way:** We want to make meaningful digital access available to all students regardless of their socioeconomic background and achieve a level of digital competence that allows students as well as teachers to effectively work with new technologies, such as artificial intelligence (AI), in an appropriate way. In addition, we seek to ensure that students and teachers approach digitalisation from a critical point of view regarding potential advantages as well as downsides.

**2) Promoting linguistic competence:** We want to give our students the possibility of practicing foreign languages in authentic situations outside of school. We try to enable students to experience real-life situations in which they can use their acquired knowledge to strengthen the skills they already have. Additionally, we encourage teachers interested in CLIL to observe other schools and teachers in another language to get inspired and learn from different approaches.

**3) Strengthening intercultural competence:** We are focusing on educating our students to approach everyone with tolerance, acceptance, solidarity and social competence, and on preserving the cultural diversity at our school. Our school's pedagogical principles reflect the same concepts, and our school's own Conflict-Resolution-Team drives positive changes in our students' community. Through international exchange and the experiences students as well as teachers gain through it, we hope to further develop and strengthen those values.

If these goals are interesting to you, or you simply want to know more about our school and a possible partnership, please contact us via email! We'd be delighted to get to know you.
